

# GRADUATE ADMISSIONS

## Admission Policy

The admissions review board carefully considers applicants' academic record, essay, recommendation letters, scores on appropriate standardized tests, and other factors that reflect students' academic potential and motivation, as well as any additional admissions requirements for the specific program to which the candidates have applied.

In addition to having a baccalaureate degree from a regionally accredited institution of higher education, graduate applicants must also meet appropriate academic department criteria to be eligible for admission. Students should contact the Admissions Office for more information about specific admissions requirements by program.

Plymouth State University considers graduate applications for most programs on a rolling admission basis. Students may apply at any time of the year and may take up to 12 graduate credits before being officially admitted into a degree program.

## Admissions Status

Students who have applied to a program may be admitted, admitted pending completion of necessary requirements, or denied admission. Students must meet all requirements associated with their offer of

admission in order to be fully matriculated in the specific program to which they are applying. Applicants will receive email notification of their admission status.

## Residency

All students attending Plymouth State University are charged tuition at a rate to be determined by their domicile or residency. Those living within the state of New Hampshire are charged the in-state rate. Those living elsewhere will pay the out-of-state rate.

Students are classified as residents or non-residents for tuition purposes at the time of admission to the University. The residency decision, made by the Admissions Office, is based on information furnished in the student's application and other relevant information.

All applicants living in New Hampshire are required to complete an electronic residency form confirming that they have been legally domiciled in New Hampshire continuously for a period of at least 12 months immediately prior to registering for the term for which the student is claiming in-state status. To qualify for in-state status, students must have been legally domiciled in New Hampshire continuously for a period of at least 12 months prior to registering for the semester for which in-state status is claimed.

Students admitted from states other than New Hampshire or from foreign countries are considered non-resident throughout their attendance at the University unless they have acquired bona fide domicile in New Hampshire. The burden of proof in all cases of residence is upon the applicant. The University reserves the right to make the final decision concerning residency status for tuition purposes. Students applying for admission should contact the Admissions Office if they have questions regarding residency. Enrolled students should contact the Student Financial Services office at <https://www.plymouth.edu/student-financial-services/contact-us> (<https://www.plymouth.edu/student-financial-services/contact-us/>).

## Establishing/Changing Residency

The residency status of graduate students is determined at the time of admission to Plymouth State University, and may be changed only by applying for reclassification. Graduate students who are currently enrolled may obtain further information on residency changes in the Residency section of the Student Financial Services website: <https://www.plymouth.edu/student-financial-services/policies/residency-information-appeals> (<https://www.plymouth.edu/student-financial-services/policies/residency-information-appeals/>).

Applications for reclassification for a fall semester are due no later than July 1. Applications for a spring semester are due no later than December 1. Applications for the summer semester are due no later than April 1.

If the student is successful in their application for reclassification, the change will be effective at the beginning of the semester. Reclassifications do not occur mid-semester.

## Military Residency Requirements

USNH policy addresses Section 702 of the Veterans Access, Choice and Accountability Act of 2014 ("Choice Act") regarding military residency requirements in Board of Trustees Financial Policies, subsection E, Classification of Students for Tuition Purposes (Residency Rules):

All matriculated graduate students must be enrolled in at least one credit each year. Graduate students who remain un-enrolled for 12 consecutive months will be withdrawn from the university.
