CRIMINAL JUSTICE (CJ)

CJ 1020  Criminal Justice in Action  (4)
An overview of the criminal justice system emphasizing the challenges of crime control in a democratic society. Students develop an understanding of how the branches of criminal justice work as a system, and explores current and future opportunities in criminal justice and related fields. Not open to students who have earned credit for CJ 1010. Falls, Early Springs, Springs, Summers.

CJ 1060  Technology in Criminal Justice  (4)
Technology is critical to the criminal justice system’s ability to achieve objectives related to crime prevention, force protection, suspect apprehension, and resiliency. Details legal and ethical issues for emerging and established technology. Topics may include officer protection, crime prevention, critical incident management, and threat analysis (NBC, drones, and cyber). Students demonstrate writing appropriate for the discipline. Not open to students who have earned credit for CJ 1050. Falls and Springs. (TECO) (WRRC)

CJ 2045  Criminal Procedure  (4)
Covers the fundamental topics in criminal procedure (both investigation and adjudication). Students explore the law and legal issues relating to the criminal process both out-of-court (such as law enforcement encounters, search and seizure, and arrest and custody) and in-court (sometimes called “bail to jail”). Not open to students who have earned credit for CJ 2040.

CJ 2075  Corrections  (4)
Introductory level course provides a review of contemporary institutional and community-based correctional systems including jails, prisons, probation, parole, and alternative sanctioning at both the adult and juvenile level. Specific attention is given to identification of risk assessment systems and evidence-based practices and programs in all aspects of the correctional system as well as the purposes of these punishments. Not open to students who have earned credit for CJ 2070.

CJ 2080  Crime and Criminals  (4)
A scientific study of crime and its control, including types of crime, patterns of criminal offending and victimization, and theories of crime and delinquency. Falls, Early Springs, Springs, Summers. Also offered as SO 2080.

CJ 2090  Criminal Law  (4)
Covers the fundamental topics in substantive criminal law. Students explore the law and legal issues relating to the purposes of criminal law, classification of crimes, proof of facts, general principles of criminal responsibility, specific crimes against persons and property, public order crimes, inchoate crimes and group criminality, and defenses to crimes. Falls and Springs.

CJ 2405  White Collar Crime  (4)
See SO 2405 for course description. Not open to students who have earned credit for CJ 2400. Springs.

CJ 3005  Criminal Investigation  (4)
The investigation of crimes in the field from the time of the initial response to preparing reports and preparation for testimony, management of the crime science, methods of interview and interrogation of witnesses and suspects, the use of informant, and the techniques of surveillance are explored as they may vary depending upon the crime being investigated. Not open to students who have earned credit for CJ 3000. Springs.

CJ 3015  Cybercrime  (4)
Introduces students to the nature and extent of cybercrime and the response of the criminal justice system. Employs past and present cybercrime cases as a pathway to show how theories (both micro/macro-level) of crime are applied. Major theories can be re-developed and applied to cybercrime. Students develop and explore different strategies for future law enforcement. Spring of odd years.

CJ 3025  Forensic Science  (4)
A presentation of the techniques, skills and limitations of the modern crime laboratory. Discussions of the recognition, collection, preservation, and analysis of physical evidence. Emphasis on the nature of physical evidence and the limitations that technology and present knowledge impose on characterization. Experiments involving DNA, fingerprinting, shoe impressions, arson, firearms, hair and fabric analysis involving modern technology like GC-MS, FTIR. Springs.

CJ 3055  The Law Enforcement Environment  (4)
Examines the history, roles, and challenges of law enforcement careers in American society. Students develop an understanding of the constitutional, ethical, and workplace expectations of law enforcement professionals, the development of modern police agencies, and the nature of police work. Also covers contemporary issues including diversity, discretion, misconduct, use of force, and dynamics of community policing. Not open to students who have earned credit for CJ 3050. Prerequisite(s): CJ 1010 or CJ 1020.

CJ 3075  Race, Class, Crime and Justice  (4)
A critical examination of the intersection of race class, crime, and the administration of justice in America. These are critical issues in American criminal justice and are consistently revealed in the arrest, prosecution, sentencing, wrongful convictions, incarceration of racial minorities and capital punishment. Surveys historical and contemporary issues associated with this intersection from a socio-legal perspective. Not open to students who have earned credit for CJ 3070. (DICO)

CJ 3085  Juvenile Delinquency  (4)
An examination of the nature and extent of juvenile crime and victimization, theories explaining juvenile delinquency, research on the causes of delinquency and the control and prevention of delinquency. May be taken as SO 3085. Fall of odd years. Not open to students who have earned credit for CJ 3080.

CJ 3155  Society, Ethics, and the Law  (4)
Students are tasked with analyzing how ethics and morality intersect with the criminal justice system and in turn effect society. Explores ethical theories and legal concepts, with particular attention to legal issues connected to race, class, and gender. Students are expected to apply interdisciplinary concepts in order to demonstrate their mastery of general education skills. Not open to students who have earned credits for CJ 3150. (DICO) (INCO) (INCP)

CJ 3260  Data Analysis for Criminal Justice  (4)
An exploration of statistical analyses designed to equip students of criminal justice with the skills necessary to analyze and interpret data. Principal learning goals include selecting the most appropriate statistical tests to answer research questions, understanding fundamentals of data management, analyzing data using statistical software, and properly interpreting the results. Emphasizes summarizing and presenting data in a professional environment.. (QRCC) (TECO)
CJ 3270 Explaining Crime (4)
An in-depth examination of theories of crime, including evaluation of varying theoretical perspectives and applications to criminal justice policy. Falls, Early Springs, Springs, Summers. Also offered as SO 3270.
Prerequisite(s): CJ 2080 or SO 2080.

CJ 3401 Research Methods in Criminal Justice (4)
An introduction to the techniques and procedures used in the process of criminal justice research. Emphasis on developing informed consumers of criminal justice research and potential producers of criminal justice data. Contributes to a foundation of problem solving techniques, critical thinking, and scholarly writing within the disciplines of criminal justice. Not open to students who have earned credits for CJ 4400. Falls and Springs.
Prerequisite(s): Junior status.

CJ 3405 Homeland Security (4)
An examination of counter terrorism and homeland security efforts critical to the mission of criminal justice agencies in the post 9-11 world. Attention is paid to vulnerability assessments and prevention efforts as well as the response, mitigation, and management of critical incidents, including terrorism and natural disasters. Special attention is paid to civil rights issues. Not open to students who have earned credits for CJ 3400.

CJ 3515 Women and Crime (4)
Examines crime and justice from a gendered perspective. Explores the nature and extent of women's and girls' involvement in the criminal justice system as offenders, victims, and employees, theories of female criminality and victimization, and issues relating to law that disproportionately affect women. An applied project is required. Not open to students who have earned credits for CJ 3510.
(DICO) (GACO)

CJ 3600 Restorative Justice Practice with Youth (4)
An examination of restorative justice applications in the juvenile justice system. Covers the fundamentals of restorative justice, theoretically and in practice with an emphasis on use in prevention programs, community-based intervention and institutional settings. Includes a 10-hour field observation/participation component in an approved setting outside of class, arranged individually with the instructor. Spring of even years.

CJ 3720 Topics in Criminal Justice (1-4)
Examines specialized topic areas in criminal justice which are not covered in significant depth in regularly scheduled course offerings. May be repeated with a different topic for no more than 12 credits.

CJ 4100 Career Search Skills for Criminal Justice (1)
Addresses job search strategies and skills for Criminal Justice majors. Students understand the process of self-marketing, seeking, and gaining employment while effectively transitioning from college to the workplace. Falls and Springs.
Prerequisite(s): Senior status.
Corequisite(s): CJ 4900.

CJ 4400 Practicum in Criminal Justice (3)
Provides a practical workplace experience in which students apply criminal justice theory and practice in an outside the classroom setting. Paid practicums are prohibited; existing paid employment cannot qualify as practicum. For majors only. Pass/No Pass. Falls, Springs.
Prerequisite(s): Senior status; permission of faculty or program coordinator.
Corequisite(s): CJ 4100.

CJ 4580 Internship in Criminal Justice (1-15)
An opportunity to learn while gaining relevant work experience in a host organization. The primary objective is to expand the student's depth of understanding by integrating acquired principles within the context of an operating organization. Students observe and participate in activities to gain experience and an understanding of the role of the institution and its contribution to the overall criminal justice effort. The experience contributes to personal and professional development and an enhancement of self-confidence and maturity. The internship is a supervised assignment with planned objectives and a prescribed number of working hours for which academic credit is earned. Internships are arranged to meet the specific goals of the student and are reserved for the student who has demonstrated self-discipline, motivation and academic success. Open to Junior and Seniors who have completed the appropriate courses to justify the position. Repeatable for a maximum of 15 credits. Arranged.
Prerequisite(s): (Junior or Senior status) and permission of the faculty supervisor.

CJ 4805 Criminal Justice Seminar (4)
A capstone seminar that focuses on major contemporary issues currently impacting the criminal justice field locally, nationally, and internationally. Students explore criminal justice policy and practice through the lenses of criminological theory and research, applying skills and knowledge acquired throughout their course of study. Emphasis is placed on preparing students for the next phase of their academic or professional career. Not open to students who have earned credits for CJ 4800.
Prerequisite(s): CJ 2080 and CJ 3401.

CJ 4900 Practicum in Criminal Justice (3)
Provides a practical workplace experience in which students apply criminal justice theory and practice in an outside the classroom setting. Paid practicums are prohibited; existing paid employment cannot qualify as practicum. For majors only. Pass/No Pass. Falls, Springs.
Prerequisite(s): Senior status; permission of faculty or program coordinator.
Corequisite(s): CJ 4100.

CJ 4910 Independent Study (1-3)
An opportunity to work with a professor in a focused research project related to an issue of criminal justice. The work may be a field study, a study of the literature or both. Generally students explore an area of interest offered in a course to a greater depth or expand their knowledge to an area not covered in a catalog course. The goal of the work is usually a publishable contribution to the literature that will be submitted to a regional or national criminal justice academic or professional group. Open to Juniors and Seniors who have completed the appropriate courses to justify the position. May be repeated for a total of no more than 6 credits. Consent required of the instructor who will supervise the independent study and the Department Chair.
