ACCOUNTING (BS)

Innovation and Entrepreneurship

The BS in Accounting prepares graduates for many careers in industry, public, governmental or non-profit accounting. Students are encouraged to seek certification as a management accountant (CMA) or as a public accountant (CPA) upon graduation. Graduates of the Accounting program are well prepared for entry into the accounting profession and also have the background needed to advance into high level management and finance positions. All baccalaureate business degree programs offered are nationally accredited by the Association of Collegiate Business Schools and Programs.
