ALLIED HEALTH SCIENCES (BS)

Health and Human Enrichment

The Allied Health Sciences degree program is designed to provide students with the required background for study in a career in the medical/allied health fields. The program serves as a Pre-Athletic Training, Pre-Physical Therapy, Pre-Occupational Therapy, Pre-Physician’s Assistant program. It will also prepare students to seek further study in Chiropractic medicine or to enter an accelerated/direct entry MSN program. A minimum GPA of 3.0 is required to graduate from this major, but students who intend to pursue graduate study in one of the programs listed above should strive to achieve a stronger academic record. Students will work closely with an academic advisor to choose the most appropriate major electives to support their intended career trajectory.

3+2 BS/MS Degree Option for Athletic Training

Students interested in athletic training who have completed all prerequisite courses and have a minimum 3.2 GPA at the end of the 3rd year of study will be given special consideration for early entry into the Master of Science degree program in Athletic Training for their 4th year of study. The MS degree program is a two-year program constituting years four and five for a student who entered the 3+2 program. Students who complete all requirements will earn the Bachelor of Science in Allied Health Sciences at the completion of year four and the Master of Science in Athletic Training at the completion of year five.

**Total Credits**: 120

1. Students who wish to be considered for early entry into the Masters degree program must complete prerequisites for that program and earn a minimum 3.20 GPA.

2. Directions should total 17-16 credits because SIDI is waived for BS Allied Health Sciences.

3. Electives will be chosen in consultation with the academic advisor to best prepare the student for their intended career.

**Recommended Course Sequence**

Check all course descriptions for prerequisites before planning course schedule. Course sequence is suggested but not required.

To complete the bachelor's degree in 4 years, you must successfully complete a minimum of 15 credits each semester or have a plan to make up credits over the course of the 4 years. For example, if you take 14 credits one semester, you need to take 16 credits in another semester.

Credits completed must count toward your program requirements (major, option, minor, certificate, general education or free electives).

</table>

1. Directions should total 17-16 credits because SIDI is waived for BS Allied Health Sciences. Students need one each of SSDI, CTDI, and PPDI AND 16 TOTAL credits (e.g. students may complete this requirement with four 4-credit courses).

2. Student must choose a course from each connections category - DICO, INCP, WECO - for a total of 9-12 credits.

**Major Electives:** Major electives will be chosen in consultation with the academic advisor to best prepare the student for their intended career.

* Use these electives and major electives to complete pre-requisites for graduate school admission

Complete 9 credits from one or more of the following disciplines: AT, BI, CH, NR, PH

AT BS/MS students will need at least one semester of Biology, Chemistry, and Physics.

Complete 18 UL (3000 or higher) credits from one or more of the following: AT, BI, CH, HE, EX, PS, NR
