

UNIVERSITY HONORS PROGRAM

The University Honors Program (UHP) at Plymouth State is a modern honors program that reflects PSU's innovative approach to education. The UHP emphasizes enrichment experiences outside of the classroom, with project work determined by the interests and passions of the students themselves. It's hands-on, interactive and meant to further enhance the college experience in a meaningful way for our most high-achieving students.

The University Honors Program at Plymouth State brings together a diverse group of high-achieving students from across our many programs to enhance their academic career. There is no fee for membership.

Benefits of the University Honors Program include:

Participation in social and enrichment events:

- **Social Events:** Attend numerous social events specifically for UHP students. Meet other high achieving students from across campus.
- **Enrichment Events:** Partake in enrichment events including faculty presentations of their latest research, alumni talking about their work experiences, and entrepreneurs and social change makers from around the area discussing their success and failures.

The opportunity to pursue a Passion Project: a personalized independent study on a topic of interest to you, under the guidance of a faculty or professional staff member. Receive 1 to 4 academic credits towards your degree.

Access to your Own Lounge and Residential Hall Space: Study and mingle in your own Honors space right in the center of campus. Optional Honors residential areas are also available.

Distinction at Graduation: Wear a distinctive cord at graduation and have "University Honors Program" printed on your diploma.
